

Cat6a S/FTP LSZH Patch leads

Features

25 year product / system warranty

Snagless flush fit strain relief boot

Shielded RJ45 plug with 50 micron gold plated contacts

Shielded S/FTP 27AWG full copper cable

Available in eight colours

Product overview

Our Cat6a range of patch leads are individually tested and certified to component level Category 6a TIA/EIA 568-B 2.10 performance requirements. Each lead is assembled using 27 AWG 4 pair S/FTP LSZH PIMF high performance cable using shielded RJ45 plugs with 50 micron gold plated contacts and snagless flush fit snagless boots which are ideal high density applications.
