

Multimedia leads

Multimedia and Data options

- 6C and Euro size
- 6C for POD desktop and PPack products
- Multimedia 300mm launch leads
- Multimedia, voice or data
- Euro for Ozone and Power Docks
- Launch lead allows multi length cable

Choices of Cat 5e and Cat 6 data lead, USB, VGA, HDMI and 3.5mm jacks allow the designer flexibility in application specific projects and greater usability for the client.

Data leads are fixed as 3-metre and 5-metre as today's bandwidth requirements need the maximum performance. Conversely the multimedia launch leads are 300mm long giving the opportunity of multi length lead options.
