

Wieland GST18 leads

Connecting leads

- 13A plug to female GST18 mains leads
- Rewireable GST18 connectors
- Male to female GST18 interconnecting leads
- GST18 coupler blocks

Desktop and under desk units need our the start leads to power up. This method is used to allow for multi length cables to keep the work space better managed, Interconnecting leads are used to daisy chain between desks when using Power Pack or desktops connected using coupler blocks.

Custom cables can be made upon request.
